

To Our Friends at RMH:

January 19, 2006

OK, so we only stayed one night, but let me just say **THANK YOU** for all of the support, assistance, direction, care, concern and overall feeling of security we got from the moment I picked up the phone. My little guy had a full day's worth of tests, appointments, consults, and more tests...we were exhausted, as I'm sure most of your guests have been. The great news? All is A-O-K with Hayden...he does have scoliosis, but the heart, lungs and all organs are perfectly healthy.

Thank You, Jesus!

We have met the most beautiful children in the last 36 hours! God bless every child and family member, friend, staff member and volunteer who enter these doors. I was told that the RMH was a wonderful place, but never expected how much like home it would feel. Knowing that there is a soft place to lay your head after a long drive, being able to trek downstairs at 2am in your foot-jammies for a snack, throwing a load of laundry in without having to dig for quarters or haul in the Tide, staff always available for questions and support, the warm environment with resources such as internet and reading material, and being so close to the hospital and clinics..."The House that Love Built" is truly a precious gift, and we will continue to extend our support in any way we can.

With much
love & gratitude
Josh, Sarah
& Hayden
Gutcher
