

pull

for the Iowa City
Ronald McDonald House

Thank you for your interest in the Ronald McDonald House *Pull Tab Collection Program*! This recycling program is a solid source of fundraising, generating more than \$8,000 a year, for this charitable organization.

The pull tab is valuable and worthwhile to recycle separately from the can because of its higher density aluminum. Collected pull tabs are sent to a recycling center operating under national contract negotiated by McDonald's. McDonald's also provides transport of tabs to the recycler. The Iowa City Ronald McDonald House is paid by the recycling center according to the pounds of pull tabs collected.

This *Pull Tab Collection Program* is a fun and easy way for any individual, organization, business, or school to support the House. Pull tab collection is taking place all across Iowa and Illinois. Many classrooms have used pull tabs as the basis for math and science lessons.

This recycling program is beneficial for everyone involved. It does not interfere with other can recycling programs and recycles a resource that might otherwise go to waste. More importantly, you are helping children and their families in their time of need. Thank you for supporting "The House that Love Built..."! Please deliver tabs to:

RONALD MCDONALD HOUSE OF IOWA CITY
